

BuildBase™

CONSTRUCT

BuildBase Construct empowers you with live construction statuses and updates while on the go. Eliminate frustrating and confusing communication gaps between teams using simple dashboards and real time progress tracking.

BuildBase Construct empowers you with live construction statuses and updates while on the go.

Buildbase Construct lets you hit the ground running with pre-configured construction templates (or build to suit) and real time progress dashboards. Plan your pipeline with the visual scheduling planner, maintain build times with milestone-linked site tasks using the easy-to-follow tracking system, and forecast possession dates with integrated delay notes so you always know what's happening on site without having to be there.

When combined with Buildbase Office and BuildBase Sales, unlock powerful job costing analytics and home status updates that gives your finance team and homebuyers all the information that they need, where they need it, when they need it.

Features

- Flexible Construction Schedules
- Visual Scheduling Planner
- Site Task Management
- Validated Construction Progress
- Construction Progress Pictures
- Delay Management
- Pre-Configured Construction Templates
- Real-time Reporting and Exports
- Integrates with Purchase Orders (with BuildBase Office)
